The McBroom Sisters have released an album as a duo called “Black Floyd.” The album is a collection of Pink Floyd classics and originals the sisters have written with Pink Floyd members Jon Carin, and Guy Pratt as well as Motor Head’s Lemmy Kilmister. The album is co-produced by David Dominney Fowler, Dave Kerzner, Lorelei and Durga McBroom. The McBroom Sisters honor the roots of Rock and Roll by bringing the music they grew up on full circle. As African America vocalists in this time of social awakening, the McBroom Sisters offer a timely blend of lyrical substance and authentic soulful takes on their unique blend of musical styles.

Steve Hackett (formerly of Genesis) featured Durga and Lorelei McBroom performing lead vocals on his song "Underground Railroad" from his 'At the Edge of the Light' album in 2019. They also performed live with him on Blue Oyster Cult's 'On the Blue Cruise' and YES's 'Cruise to the Edge.' Hackett features the McBroom Sisters again on single "Wingbeats" in 2021 from his album 'Surrender of Silence.'

Thanks to The Dave Kerzner band introducing The McBroom Sisters to the "Cruise to the Edge" fans, they landed their own show on 2022's band roster. The shows were a success and The McBroom Sisters will be featured again in 2023-24 upcoming season.

The McBroom Sisters, (seen here on the cover of Argentina's CulturaRock Magazine in 2015,) have been featured throughout Latin America in Argentina, Brazil, Chile, Ecuador, Guatemala and Mexico.

Italy and various other European countries have featured the McBroom Sisters working together and as solo featured artists with some of the world's best Pink Floyd tribute bands.

Durga enjoyed solo success with Killing Joke's Youth in their hit making duo Blue Pearl.

As the lead singer of 'Blue Pearl' see Durga perform her top 5 hit 'Naked in the Rain.' She also collaborated with Boy George and Billy Idol on his album Cyberpunk.

“ROLLING STONES AT THE MAX” – Lorelei joined Mick Jagger, Keith Richards, Charlie Watts, Bill Wyman and Ron Wood in the Stones first IMAX film from 1990.
